

# Hariharan R

Java Full Stack Developer

☎ +91-8072369012 || ✉ [hariharanhari6033@gmail.com](mailto:hariharanhari6033@gmail.com) || [LinkedIn](#) || [GitHub](#) || [Portfolio](#)

## SUMMARY

Java Full Stack Developer experienced in building scalable applications with strong backend logic and responsive frontends. Skilled in Java, J2EE, and MySQL, with hands-on practice in handling high-volume data and crafting user-friendly solutions. Passionate about clean architecture and teamwork.

## SKILLS

- Backend Development: Java, J2EE, Servlets, JDBC, .NET
- Frontend / Database: HTML, CSS, JavaScript / Oracle 10G, MySQL
- Tools: Eclipse, VS Code, Visual Studio, GitHub, Git
- Concepts: CRUD, OOP, Multithreading, Full Stack Development

## EXPERIENCE

Process Associate – Bank of America Project

Tata Consultancy Services (TCS), Chennai — Apr 2024 to Mar 2025

- Accurately processed and validated medical billing documents and coupons for Bank of America clients, following strict payer-specific rules.
- Entered data into internal claim management systems with high attention to detail, maintaining data integrity for medical services, patients, and insurance claims.
- Generated periodic reports on error trends and productivity to support process improvements.
- Maintained daily accuracy levels above 95%, significantly reducing rework and denials.

## EDUCATION

Bishop Heber College 2023

Bachelor of Computer Applications | 6.96 CGPA

## CERTIFICATIONS

Java Full Stack Development – J Spiders, Chennai — Jun 2023 to Feb 2024

- Core Java, JEE, Servlets, JSP, JDBC, Oracle SQL
- Built full-stack projects using real-world case studies
- Developed responsive, dynamic websites using HTML, CSS, JavaScript

## PROJECTS

Console-Based TCP Chat Application || [Github-repo](#)

- Developed a real-time, two-way chat system using TCP socket programming (TcpClient / TcpListener) in C#.
- Implemented multithreading to enable simultaneous message sending and receiving.
- Gained hands-on experience with client-server architecture and low-level network communication.
- Strengthened skills in debugging, Git version control, and Visual Studio solution management.
